PROFESSIONAL SUMMARY

Detail-oriented Information Technology Undergraduate (Year 2, Semester 2) at SLIIT. Passionate about software development and system architecture with a strong foundation in Object-Oriented Programming (Java) and Web Technologies. Proven ability to translate complex requirements into functional code through academic projects. Currently seeking a challenging internship to contribute to a professional development team while further honing industry-standard technical skills.

TECHNICAL SKILLS

- **Languages:** Java (Advanced), Python, JavaScript (ES6), SQL
- **Web Development:** HTML5, CSS3, Bootstrap, Basics of React.js & Node.js
- **Databases:** MySQL, MongoDB
- **Tools & Platforms:** Git, GitHub, VS Code, IntelliJ IDEA
- **Core Concepts:** OOP, Data Structures & Algorithms (DSA), REST APIs, SDLC

EDUCATION

BSc (Hons) in Information Technology |2024 - Present

Sri Lanka Institute of Information Technology (SLIIT)

G.C.E. Advanced Level Examination | 2022/2023

Taxila Central College, Horana

- Engineering Technology: **B**
- Science for Technology: **C**
- Information Technology: **C**

PROJECTS

Finance Tracker | Web Application ***Python, Flask, MongoDB, HTML, CSS***

- Developed a full-stack web application to manage income, expenses, budgets, and savings goals.
- Implemented secure user authentication and session management to protect user data.
- Integrated MongoDB for dynamic data storage, handling complex CRUD operations for financial records.
- Designed a responsive UI and implemented RESTful routes to ensure seamless front-end and back-end communication.

Golden Palm Hotel Reservation & Booking Management System | Web Application ***Java, Spring Boot, MySQL, HTML, CSS***

- Developed a comprehensive full-stack hotel reservation system to manage room bookings, customer profiles, and payment records.
- Implemented secure user authentication and Role-Based Access Control (RBAC) to differentiate between Admin and Customer functionalities.
- Designed dynamic room availability tracking with real-time updates to prevent overbooking and ensure data consistency.
- Integrated MySQL using Spring Data JPA for handling complex entity relationships and executing efficient CRUD operations.
- Developed a modern, responsive interface for booking management, payment tracking, and an administrative dashboard for system monitoring.

Joy Ride – Bike Rental & Ride-Sharing Platform | Full-Stack Web Application ***Java, Spring Boot, MySQL, HTML, CSS***

- Developed a full-stack web platform enabling users to rent bikes and owners to register and manage their vehicles efficiently.
- Implemented a specialized two-step bike owner registration process including image upload functionality and license verification.
- Integrated secure authentication and Role-Based Access Control (RBAC) to differentiate between Admin, Owner, and User functionalities.
- Built a comprehensive payment management system featuring payment slip uploads, a verification workflow, and an admin approval process.
- Designed a responsive UI and optimized backend APIs to handle seamless booking, payment tracking, and automated notification handling.

SOFT SKILLS

- Problem-Solving | Analytical Mindset
- Team Collaboration | Agile Methodology
- Quick Learner | Technical Adaptability
- Time Management | Project Planning
- Effective Communication
